

Training

Our job is to help get you up and running as quickly as possible. While software and apps are meant to streamline processes, in today's world the vast amount of technology needed to do a job can be overwhelming. That's why we've taken years of training and modern-day best practices to ensure your investment in The Estimating Edge is successful.

The EDGE™ Estimator

New User Onboarding

Includes instructor-led class, database setup, configuration work and a learning module program. Designed for **up to three users** but we can accommodate more if needed, training is **typically four days**.

Virtual—Held via a one-on-one, web-based session, training is typically held over a **three to four-day period**.

If time is an issue and you want to go through training faster or even slower, we can adjust to your schedule. After all, we don't want you to use The EDGE, we want you to love it.

In-House—Held at the corporate office in Boynton Beach, FL.

On-Site—Held at your office.

Ongoing User Training

Customized to fit your needs, you have access to one-on-one help with an expert trainer. Designed for **up to three users** but **we can accommodate more** if needed.

Virtual—If you have an estimator who needs a quick refresher, we can work with you in a one-on-one, web-based training session. No matter the complexity of the topic, we can create a session just for you.

In-House—Held at the corporate office in Boynton Beach, FL.

On-Site—Held at your office.

Bid sharp. Build sharp.
